

# WELCOME TO ALEXION'S NEW SUSTAINABLE HEADQUARTERS

Our new HQ represents best-in-class design, construction, maintenance and operation of a green building. The result is a building that is environmentally responsible, saves money and resources, and has a positive impact on the health and productivity of those who work in it.

## 90% NATURAL LIGHT

90% of occupied areas have access to views.

## 50%

### ENERGY FROM RENEWABLES

ENERGY STAR Electronics and appliances use 10-50% less energy. 50% of Alexion's electricity will be purchased from renewable energy sources.

## 818 TONS

### RECYCLED MATERIALS SALVAGED

Recycled and salvaged more than 818 tons of waste or 92% diverted from the landfill.

## INCREASED AIR QUALITY

Paints, Coatings, Sealants, Adhesives on interior walls have lower amounts of Volatile Organic Compounds (VOC), emitting fewer pollutants.

## ROOF TOP GARDEN

Our green roof will have an organic veggie garden.

## 778,000 GALLONS

Water Efficiency – High performance fixtures will save an estimated 778,000 gallons of water per year.

Our new headquarters was designed to LEED Commercial Interiors Platinum Standards of the U.S. Green Building Council's (USGBC) Leadership in Energy and Environmental Design (LEED) Program. We will be submitting our application for LEED certification in the coming months.
